BRIDGE JOINT REPAIRS ON INTERSTATE 93 IN LONDONDERRY
I-93 NORTHBOUND OVER ROUTE 28 AT EXIT 5

The New Hampshire Department of Transportation announces bridge joint repairs will take place at the I-93 northbound bridge over Route 28 in Londonderry. The bridge is located at Exit 5. The work will require single lane traffic (14' wide) at the bridge on October 4.

A New Hampshire Department of Transportation crew will restrict traffic on the bridge to one lane from 10:00 a.m. to approximately 3:00 p.m. on Thursday, October 4. Advance warning signs, cones, arrow panels, and State Police will be used to guide motorists through the work zone.

In the event of adverse weather, the work may be delayed until the next suitable workday.

Motorists traveling on I-93 northbound in the vicinity of Exit 5 in Londonderry are requested to use caution when driving through the work area. Minor delays may be encountered.
